Eye Catching

There is nothing quite as eye catching as the effects you get with our computer controlled dye jet system. It means creating mats, rugs or carpet with virtually any design, in amazing intricate detail, ensuring your company maintains a high level of brand awareness at all

Manufactured

The mats are manufactured from durable dupont 6.6 nylon twist yarn bonded to a fully washable anti slip rubber, providing strength and stability on any floor surface. Ideal for entrances, lobbies and high traffic areas.

The Technology

Our mats are created using revolutionary printing technology (no screens needed) Every step in design and production is electronically controlled - from design to paper strike-offs.

This technology enables us to perfectly re-create your new and exciting images, ensuring a high presence of brand awareness

Designs

- ◆ Self Image can customise your design or logo to suit any application
 - ◆ All Designs are created on computer, eliminating the need for screen printing
 - ◆ Economical even at one off runs
 - ◆ Excellent print definition
 - ◆ Deep colour penetration
 - ◆ High flexibility

Exhibition Tiles

Exhibition Tiles provide the ideal way to further enhance your image during an exhibition. They can be used to advertise a specific promotions, company services or to promote brand awareness.

Our Exhibition Tiles are designed to perfectly fit into the tiles generally used by exhibition companies. They are of a high quality nylon surface and backed with a heavy duty PVC backing.

Exhibition Tiles are 1mtr x 1mtr square, however we can arrange custom sizes to suit your needs, allowing you the flexibility to create almost any image, setting your company apart from the rest.

Custom Design

With Self Image technology it is simple to create your own custom design with up to sixteen colours from our own palette of brilliant shades. Special colours can be created to perfectly match your design or logo.

Custom made mats are the perfect solution for advertising, messages, logo and brand awareness. Self Image mats can relay your message with designs of the finest detail and a richness of colour that will amaze your clients and entice your customers. Place them in your store, gym, office, factory, gym or exhibition. Anywhere that people go - so does Self Image.

Quantities

We can print from one to any number of mats. Each mat can have an individual logo or message. This makes them ideal for chain stores or groups where members may wish to have their own details added to the corporate logo.

Backing

Self Image mats are backed with a non-slip nitrile rubber which, unlike PVC backing, will not crack, peel or tear. It is easy to keep your Self Image mat looking it's best. You have the choice of machine washing, hosing off or use an industrial laundry to quickly and efficiently take care of your cleaning needs.

Designs

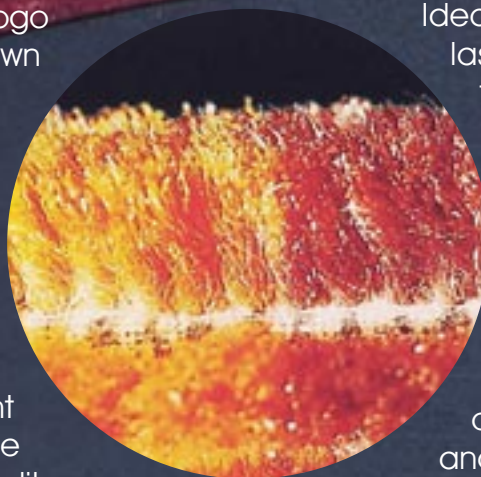

Use your company logo or a design of your own choice to create a stunning look

Create

Ideal for when you need to create that lasting impression in high visibility areas to project your company image. The first impression can be decisive in any business relationship.

Fibre Content

The mat pile is made from a heavy weight Dupont nylon fibre - the same fibre used in high quality broadloom carpet.

Dye Jet System

Computer controlled jets open and close up to 400 times per second and inject dye with surgical precision deep into the carpet pile.

Warranty

The mat's message is fully guaranteed for the lifetime of the mat.

Link Mat Bubble – Single & Interlockable

This provides comfort with a unique rubber bubble system on the top. The single mat is ideal for bars, workstations, shops, checkout counters, etc. The modular design makes it possible to join the mats, creating various sizes. Safety Yellow & Safety Black mats have bevelled edge on all sides.

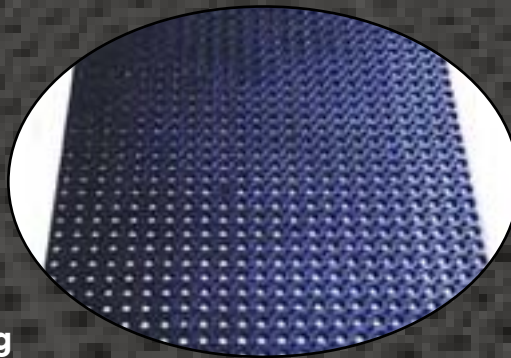

Multi Matting – Rolls & Reversible

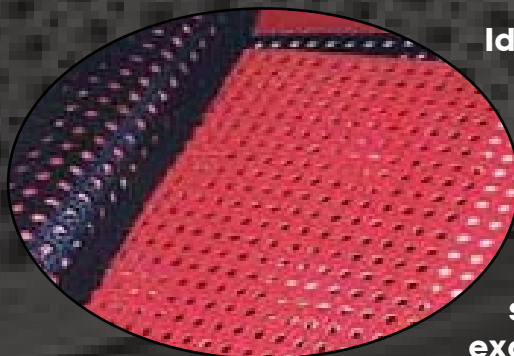

Ideal for dry, wet or greasy areas. Great for dishwashing areas, walkways, passageways & bars. This reversible anti-slip matting system can be rolled up when not in use. The drainage holes allow waste and liquid to pass through the surface. Made from quality rubber - designed to last.

Cushionwalk Module

Ideal for engine rooms, ute mats, assembly lines, luggage areas, horse floats, etc. Made from a soft and highly resilient rubber. Recommended for a variety of low pressure applications in hot or cold water and wears very well. Anti-fatigue and anti-slip it will provide relief for tired, aching feet and back muscles.

Bevelled Edge Safety Mat

Ideal for dry, wet or greasy areas. Great for bars, kitchens, hospitals, butcher shops, service stations, workshops, etc. Designed for anti-slip with large cylindrical holes and a raised base which allows spills to pass through. The mat has beveled edges on all sides and a unique backing to provide excellent anti-slip drainage.

Message Mats

The Self Image Message Mat is a fantastic way to alert people to impending danger or to their location in a building. Place them at the entrance to factories, workshops or wherever they're needed. The mats are anti-slip and made from a high quality Du-pont nylon fibre bonded to a nitrile rubber backing. The perfect solution to relay those important messages

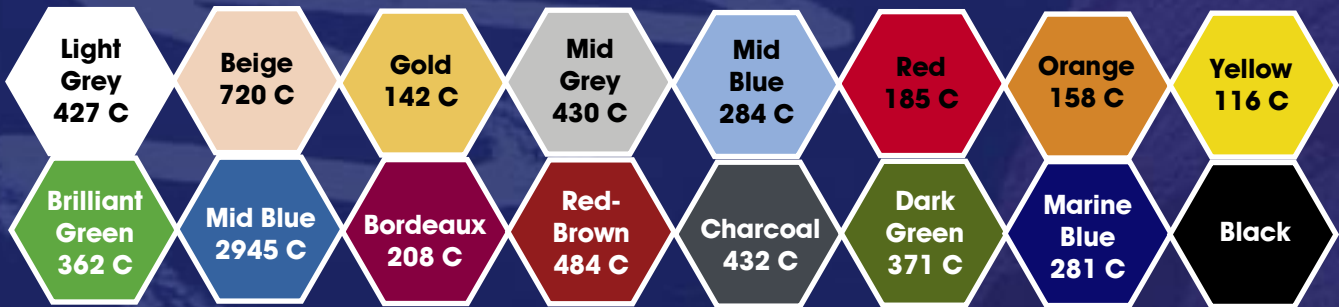

Plain Mats

Plain mats are an ideal way to protect your flooring in a subtle, inconspicuous way. They are especially useful for walkways, offices, cafeterias or any area where a discreet look is called for. They are available in a wide range of sizes and you can choose from our standard colour palette or we can match a specific colour for you.

Standard Colours

At Self Image we can print your design or logo with stunning clarity and definition using our standard 72 colour palette in any combinations required. If you have more specific colour needs, we are able to create the shades you are looking for. Self Image mats are ideal for major chains whose Franchises or members may wish to have their individual names or locations added to the Corporate Image. One off mats are easily and economically created.

Colours are to be as a guide only. Colours will vary when printed
